

The World's Largest Production of Tires on the Smaller Cars Alone

We call attention not so much to the size of this average daily production as to the extent of the effort we put into the making of these 30x3-, 30x3½-, and 31x4-inch sizes.

The separate factory we have devoted to their manufacture is not only the largest of its kind in the world, but it makes fully effective that experience and resourcefulness which have produced the tires most popular on the higher-priced cars.

No tires bearing the Goodyear name contain a higher relative value than these tires for Ford, Chevrolet, Dort, Maxwell and other cars requiring the sizes mentioned.

If you own one of these cars, go to the nearest Goodyear Service Station Dealer for these tires and for Goodyear Heavy Tourist Tubes. He has them.

30x3½ Goodyear Double-Cure Fabric, All-Weather Tread. \$23.50

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread. \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 3 x 3½ size in water. \$4.50 proof bag

GOODYEAR

Mr. and Mrs. J. M. Dean and family are moving here from Drift.

FROM KANSAS.

Council Grove, Kans., March 20, 1920.

To the dear old Big Sandy News:—

Hope I may have a small place in a column this week as I am from the Big Sandy Valley, and the NEWS is sure a welcome paper in this home.

There is quite a contrast in this part of Kansas, where I am located, and the mountainous Eastern Kentucky. The country is very level and beautiful, but the sand storms are terrible. We recently had a today and night sand storm which made this city look as if it were wrapped in an impenetrable fog. This rendered traffic nearly impossible for a while. This part of Kansas has not had a good rain since last summer and the people say the city will be inundated by a real flood as usual when summer is here.

If Kentucky would follow the plan of building roads like this state does, I am sure there would be less commotion over wanting good roads there. Every farmer here is paid by the county to drain and drag the roads on his own land, and this is done after every rain or when it is necessary.

I am glad to know that the street paving is going to start in Louisa soon. Also that there is quite a number of new buildings going up there now. The place is, undoubtedly, taking on an industrial inspiration of growth. And I also note with much interest that there is to be a State Normal college located there. This is a hope long cherished by our honorable professors of the K. N. C. and I hope it doesn't meet with failure.

I have a good position in this city, and please, may I take off my hat to the K. N. C. and its efficient training of students.

A former teacher of Lawrence county.

E. F. JOBE.

DON'T WHIP!

Stop Lashing Your Bowels with Harsh Cathartics but take "Cascarets."

Everyone must occasionally give to the bowels some regular help or else suffer from constipation, bilious attacks, stomach disorders, and sick headache. But do not whip the bowels into activity with harsh cathartics. What the liver and bowels need is a gentle and natural tonic, one that can constantly be used without harm. The gentlest liver and bowel tonic is "Cascarets." They put the liver to work and cleanse the colon and bowels of all waste, toxins and poisons without griping—they never sicken or inconvenience you like Calomel, Salts, Oil, or Purgatives.

Twenty-five million boxes of Cascarets are sold each year. They work while you sleep. Cascarets cost so little too.

BLAINE

Mr. and Mrs. Wallace Jordan spent Sunday with Mr. and Mrs. A. J. Holton.

Miss Julia Fraley, who has been in Ohio for some time, is expected home soon.

Mrs. George Pack spent Sunday with Mrs. M. T. Nickel.

Dad Reynolds passed here last week.

Mrs. Levi Miller and little daughter and son were visiting Mrs. George Thompson Sunday.

Milton Robinson was here last week.

BLUE EYES.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.
